SUMMARY

Experienced React and Next.js Frontend Developer Engineer with 2 years of proven work experience, proficient in crafting dynamic user interfaces and seamlessly integrating APIs. Leveraging expertise in React's component-based architecture and Next.js's server-side rendering, I specialize in creating intuitive frontend experiences that seamlessly communicate with backend systems. With a meticulous approach to code quality and performance optimization, I ensure that applications are both visually stunning and functionally robust. Collaborating closely with backend teams, I adeptly integrate APIs to deliver data-driven solutions that meet client objectives. Passionate about innovation and continuous improvement, I actively seek out opportunities to enhance both my technical and soft skills.

EDUCATION

10.2018 - 08.2022

Govt College University Faisalabad

Bachelor in Software Engineering # CGPA 3.67

WORK EXPERIENCE

06.2023 - present
